barcelona lights

Los que vivimos cerca del Mediterráneo conocemos todos los matices de la luz.
Por eso cuando llega la noche la transformamos en pequeños espacios de día.

Wir, die in der Nähe des Mittelmeers leben, kennen alle Abstufungen des Lichts.
Wenn die Nacht kommt, verwandeln sie in kleine Punkte des Lichts.

Those of us who live near the Mediterranean know all of light's nuances.
Therefore when night arrives we transform it into small spaces of day.

Mediterraneotik gertu bizi garenok ondo ezogutzen ditugu argiaren nabardura guztiak.
Horregatik, goua datorrenean egun bihurtzen dugu gure argi-gune txikien bitartez.

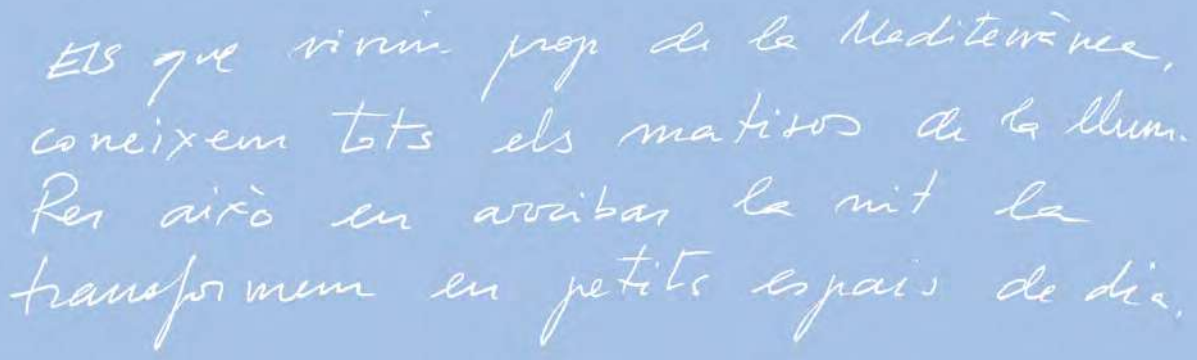
Ceux qui, comme nous, habitent près de la Méditerranée connaissent toutes les nuances de la lumière.
C'est pourquoi á la nuit tombée, nous la transformons en petits espaces de lumière.

Os que vivimos à beira do Mediterráneo conhecemos todos los matices da luz.
Por isso ao chegar a noite transformá-mos-la em pequenos espaços do día.

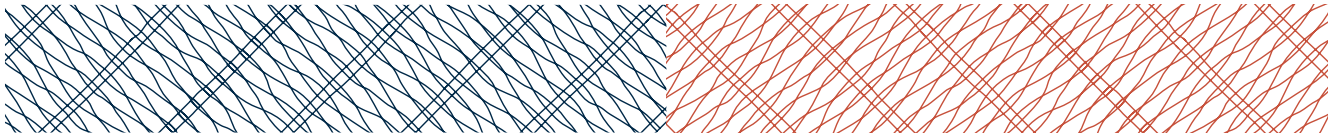
Noi che viviamo vicino al Mediterraneo conosciamo tutte le sfumature della luce.
Per questo quando cala la notte, la trasformiamo in piccoli spazi del giorno.

Quem vive perto do Mediterráneo conhece todas as nuances da luz.
Por isso, quando chega a noite, transformamo-la em pequenos espaços de día.

Lluís Porqueras



Lluís Porqueras



En Bover hace años que trabajamos con la idea de contribuir en la mejora del espacio, intentando resolver de forma natural las necesidades de iluminación que como usuarios consideramos más relevantes.

Nos interesa la búsqueda constante de la intemporalidad como concepto y al mismo tiempo, intentamos mantener el equilibrio entre la tendencia y la cultura material que nos rodea y nos influye. Esa línea suave y discreta que nos separa y nos posiciona frente a los demás, y nos hace sentir diferentes cuando entramos en nuestras casas, en nuestros espacios preferidos. En definitiva, en nuestro mundo.

El contraste, el orden, la belleza, la luz, la cultura que nos alimenta sin darnos cuenta, la elegancia que no se ve, pero se siente; son principios y actitudes que elegimos y que transmiten nuestras ideas, nuestra forma de ver y sentir la vida que nos rodea.

En Bover nos gusta crecer, saber que somos capaces de someternos a numerosas consideraciones que nos ayuden a mejorar nuestro trabajo y, en consecuencia, nuestro entorno.

Entendemos la calidad como una parte fundamental del buen diseño y somos felices, sí, felices, cuando nos damos cuenta de que somos capaces de combinar métodos de producción artesana con tecnologías avanzadas. Nos enorgullece particularmente seguir realizando parte de nuestro trabajo con las manos, porque trabajar de forma artesanal es también una forma de rendir homenaje a la memoria de las cosas que siempre han estado cerca.

Pensar, analizar, diseñar productos que nos devuelven el sabor del tiempo que no pasa y que, convertimos en formas suaves, confortables y orgánicas; nos aporta esa libertad soñada que entiende la belleza como un soplo espontaneo de aire fresco.

Espero que disfrutéis del resultado.

In Bover we have been working for years with the idea of contributing in the improvement of space; trying to solve the lighting needs in the most natural way that, as users, we consider to be the most relevant.

We are interested in the constant search for timelessness as a concept and at the same time, we try to maintain a balance between trends and the material culture that surrounds and influences us. That soft and discreet line that separates and positions us in front of the others and makes us feel different when we enter our homes, our favourite spaces. In short, in our world.

The contrast, the order, the beauty, the light, the culture that feeds us without us realising it, the elegance that is not seen, but is felt; are principles and attitudes that we choose and that transmit our ideas, our way of seeing and feeling the life that surrounds us.

At Bover we like to grow, we like to know that we are capable of submitting ourselves to numerous considerations that help us to improve our work and, consequently, our environment.

We understand quality as a fundamental part of a good design and we are happy, yes, happy, when we realise that we are able to combine artisan methods of production with advanced technologies. We are particularly proud to continue to carry out part of our work manually because working artistically is also a way to pay homage to the memory of things that have always been close.

Thinking, analysing, designing products that gives us a sense of being stopped in time and that we become soft, comfortable and organic forms; it brings us that dreamed freedom that understands beauty as a spontaneous breath of fresh air.

I hope you enjoy the result.

Outdoor

Quizás porque somos del mediterráneo; el outdoor es uno de los campos en los que Bover es más conocida.

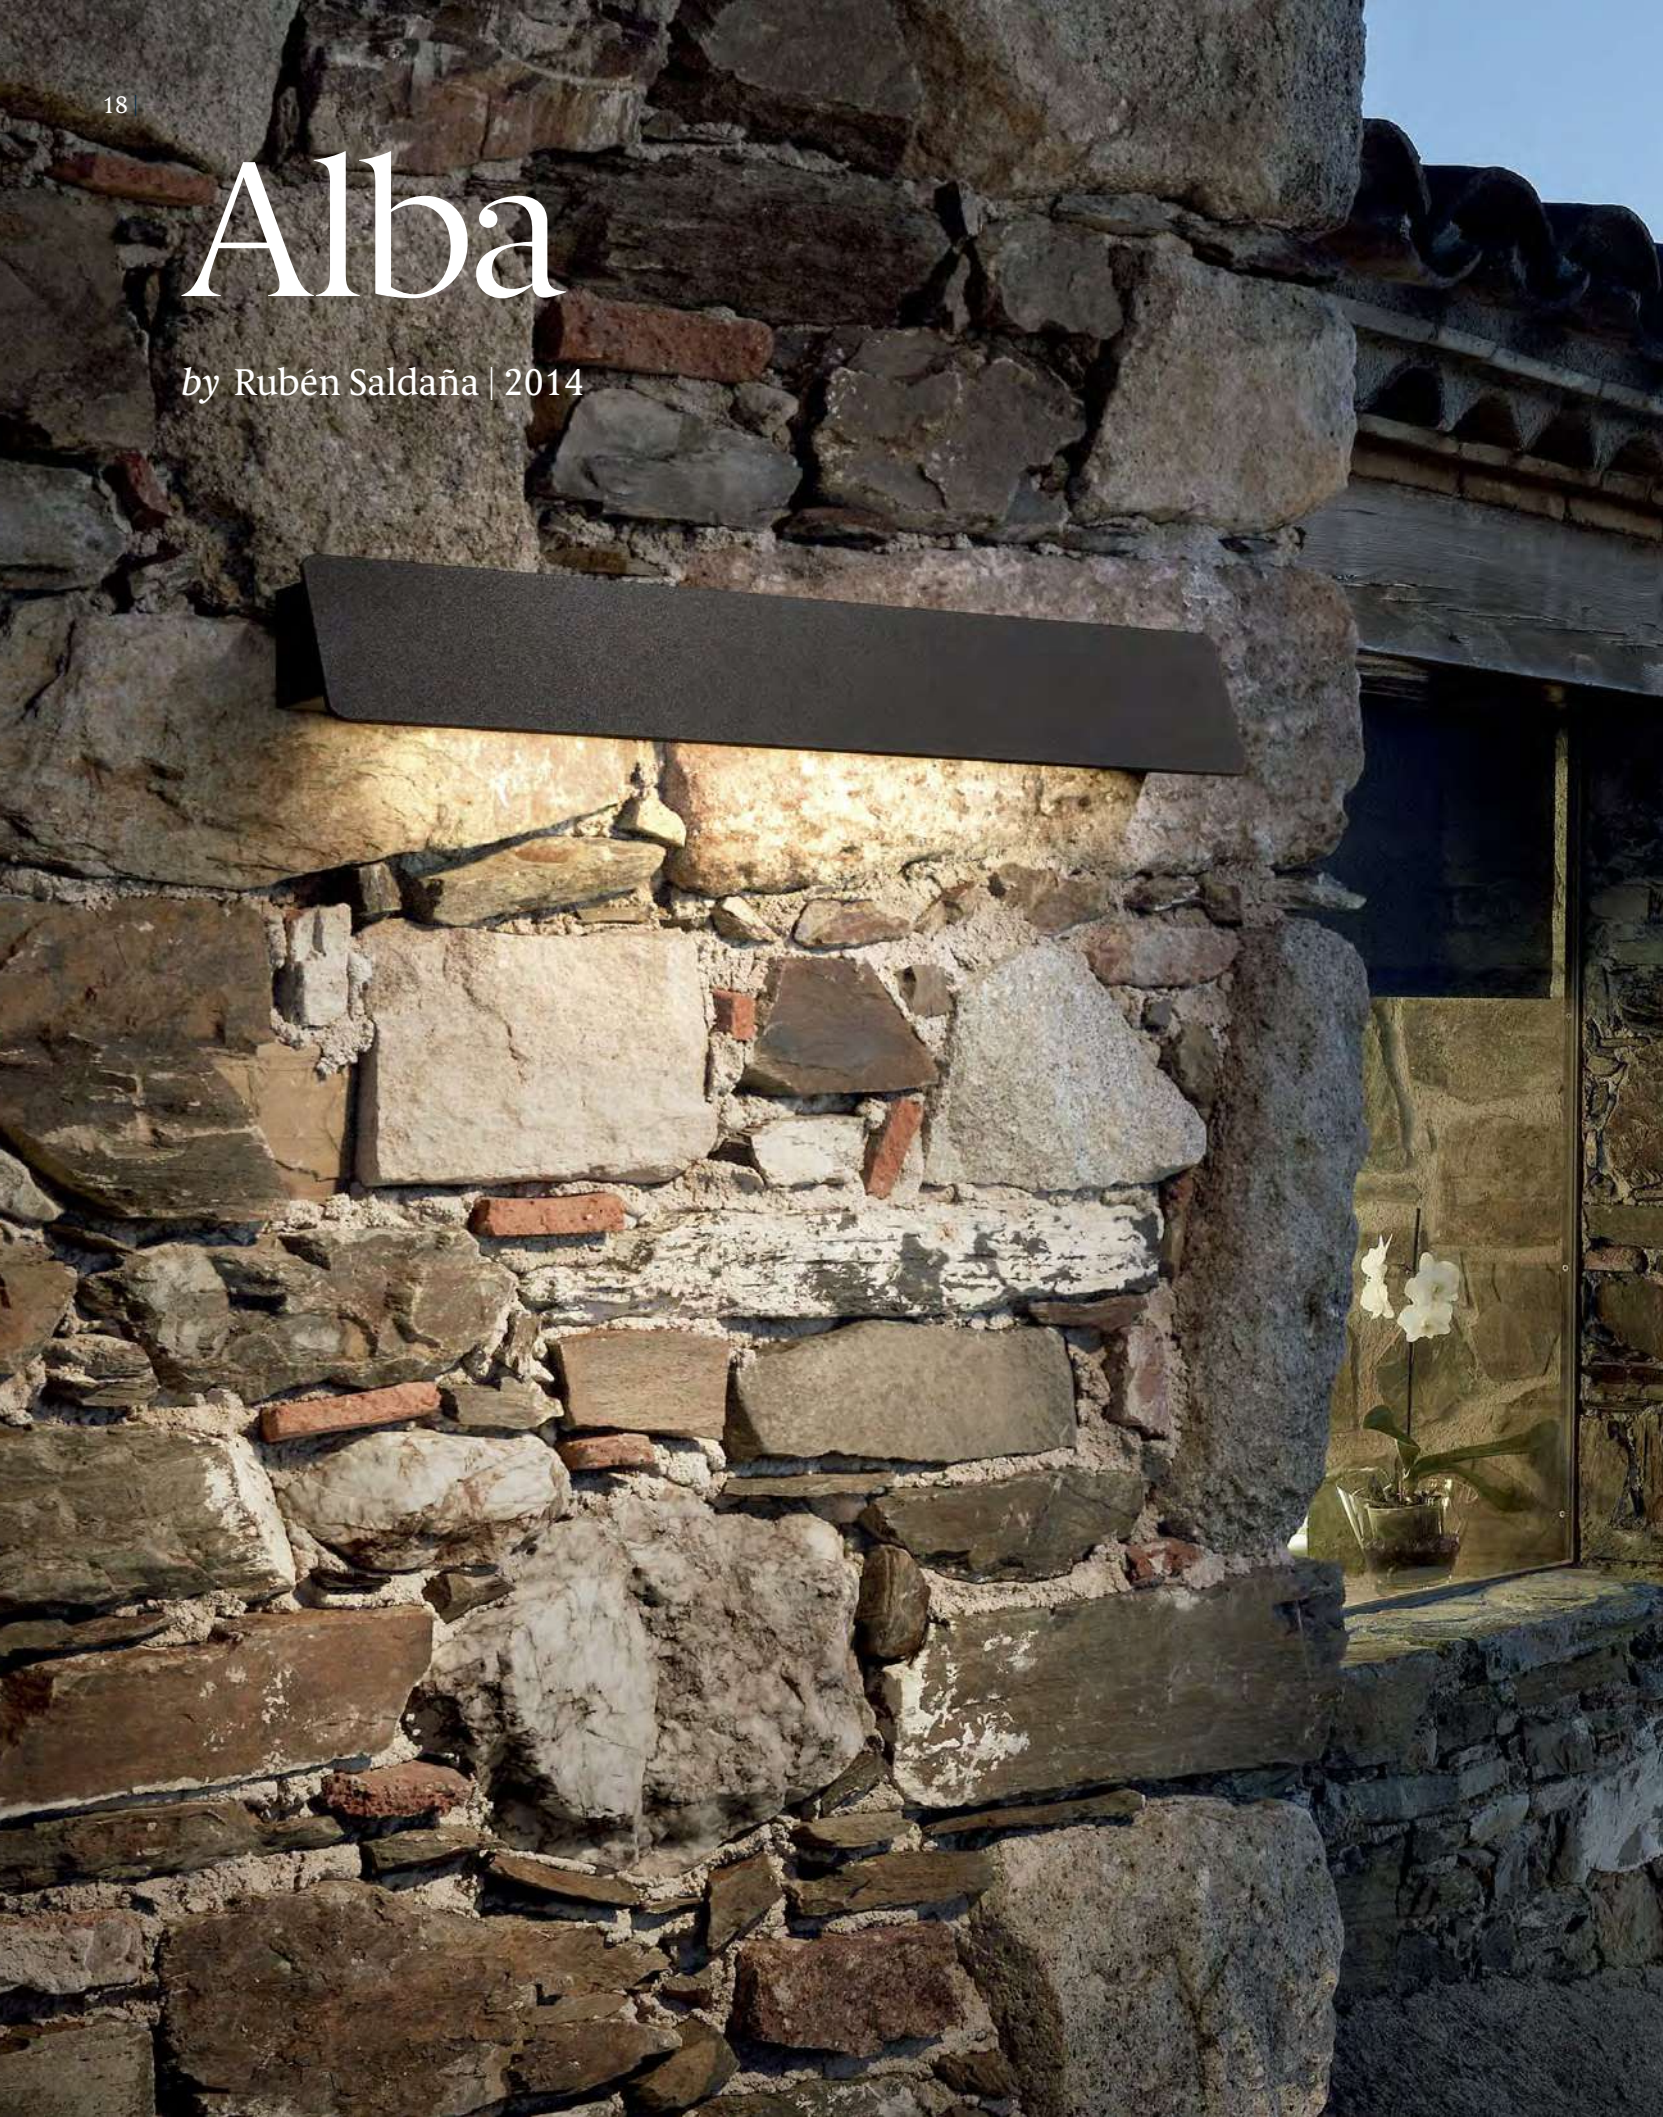
El denominador común de esta colección es la combinación de resistencia y sensibilidad. Resistencia ya que está diseñada para poder vivir cómodamente a la intemperie, y sensibilidad expresada en la delicadeza con que tamiza la luz y la calidez general de la lámpara. Estas características hacen que tanto dentro como fuera de un espacio arquitectónico, ayuden a crear una sensación de continuidad.

Perhaps because we are from the Mediterranean; the outdoors are one of the areas in which Bover is best known.

This collection's common denominator is the combination of resistance and sensitivity. Resistance since it is designed to be able to live comfortably outdoors, and sensitivity expressed in the delicacy with which it sifts the light and the general warmth of the lamp. These features mean that both the inside and outside of an architectural space help to create a sense of continuity.

Alba

by Rubén Saldaña | 2014



"Alba es un aplique de diseño arquitectural; especialmente indicado para iluminar elementos que requieran una luz directa y uniforme."

"Alba is an architectural design wall sconce especially suitable to project light over elements requiring direct and uniform illumination."

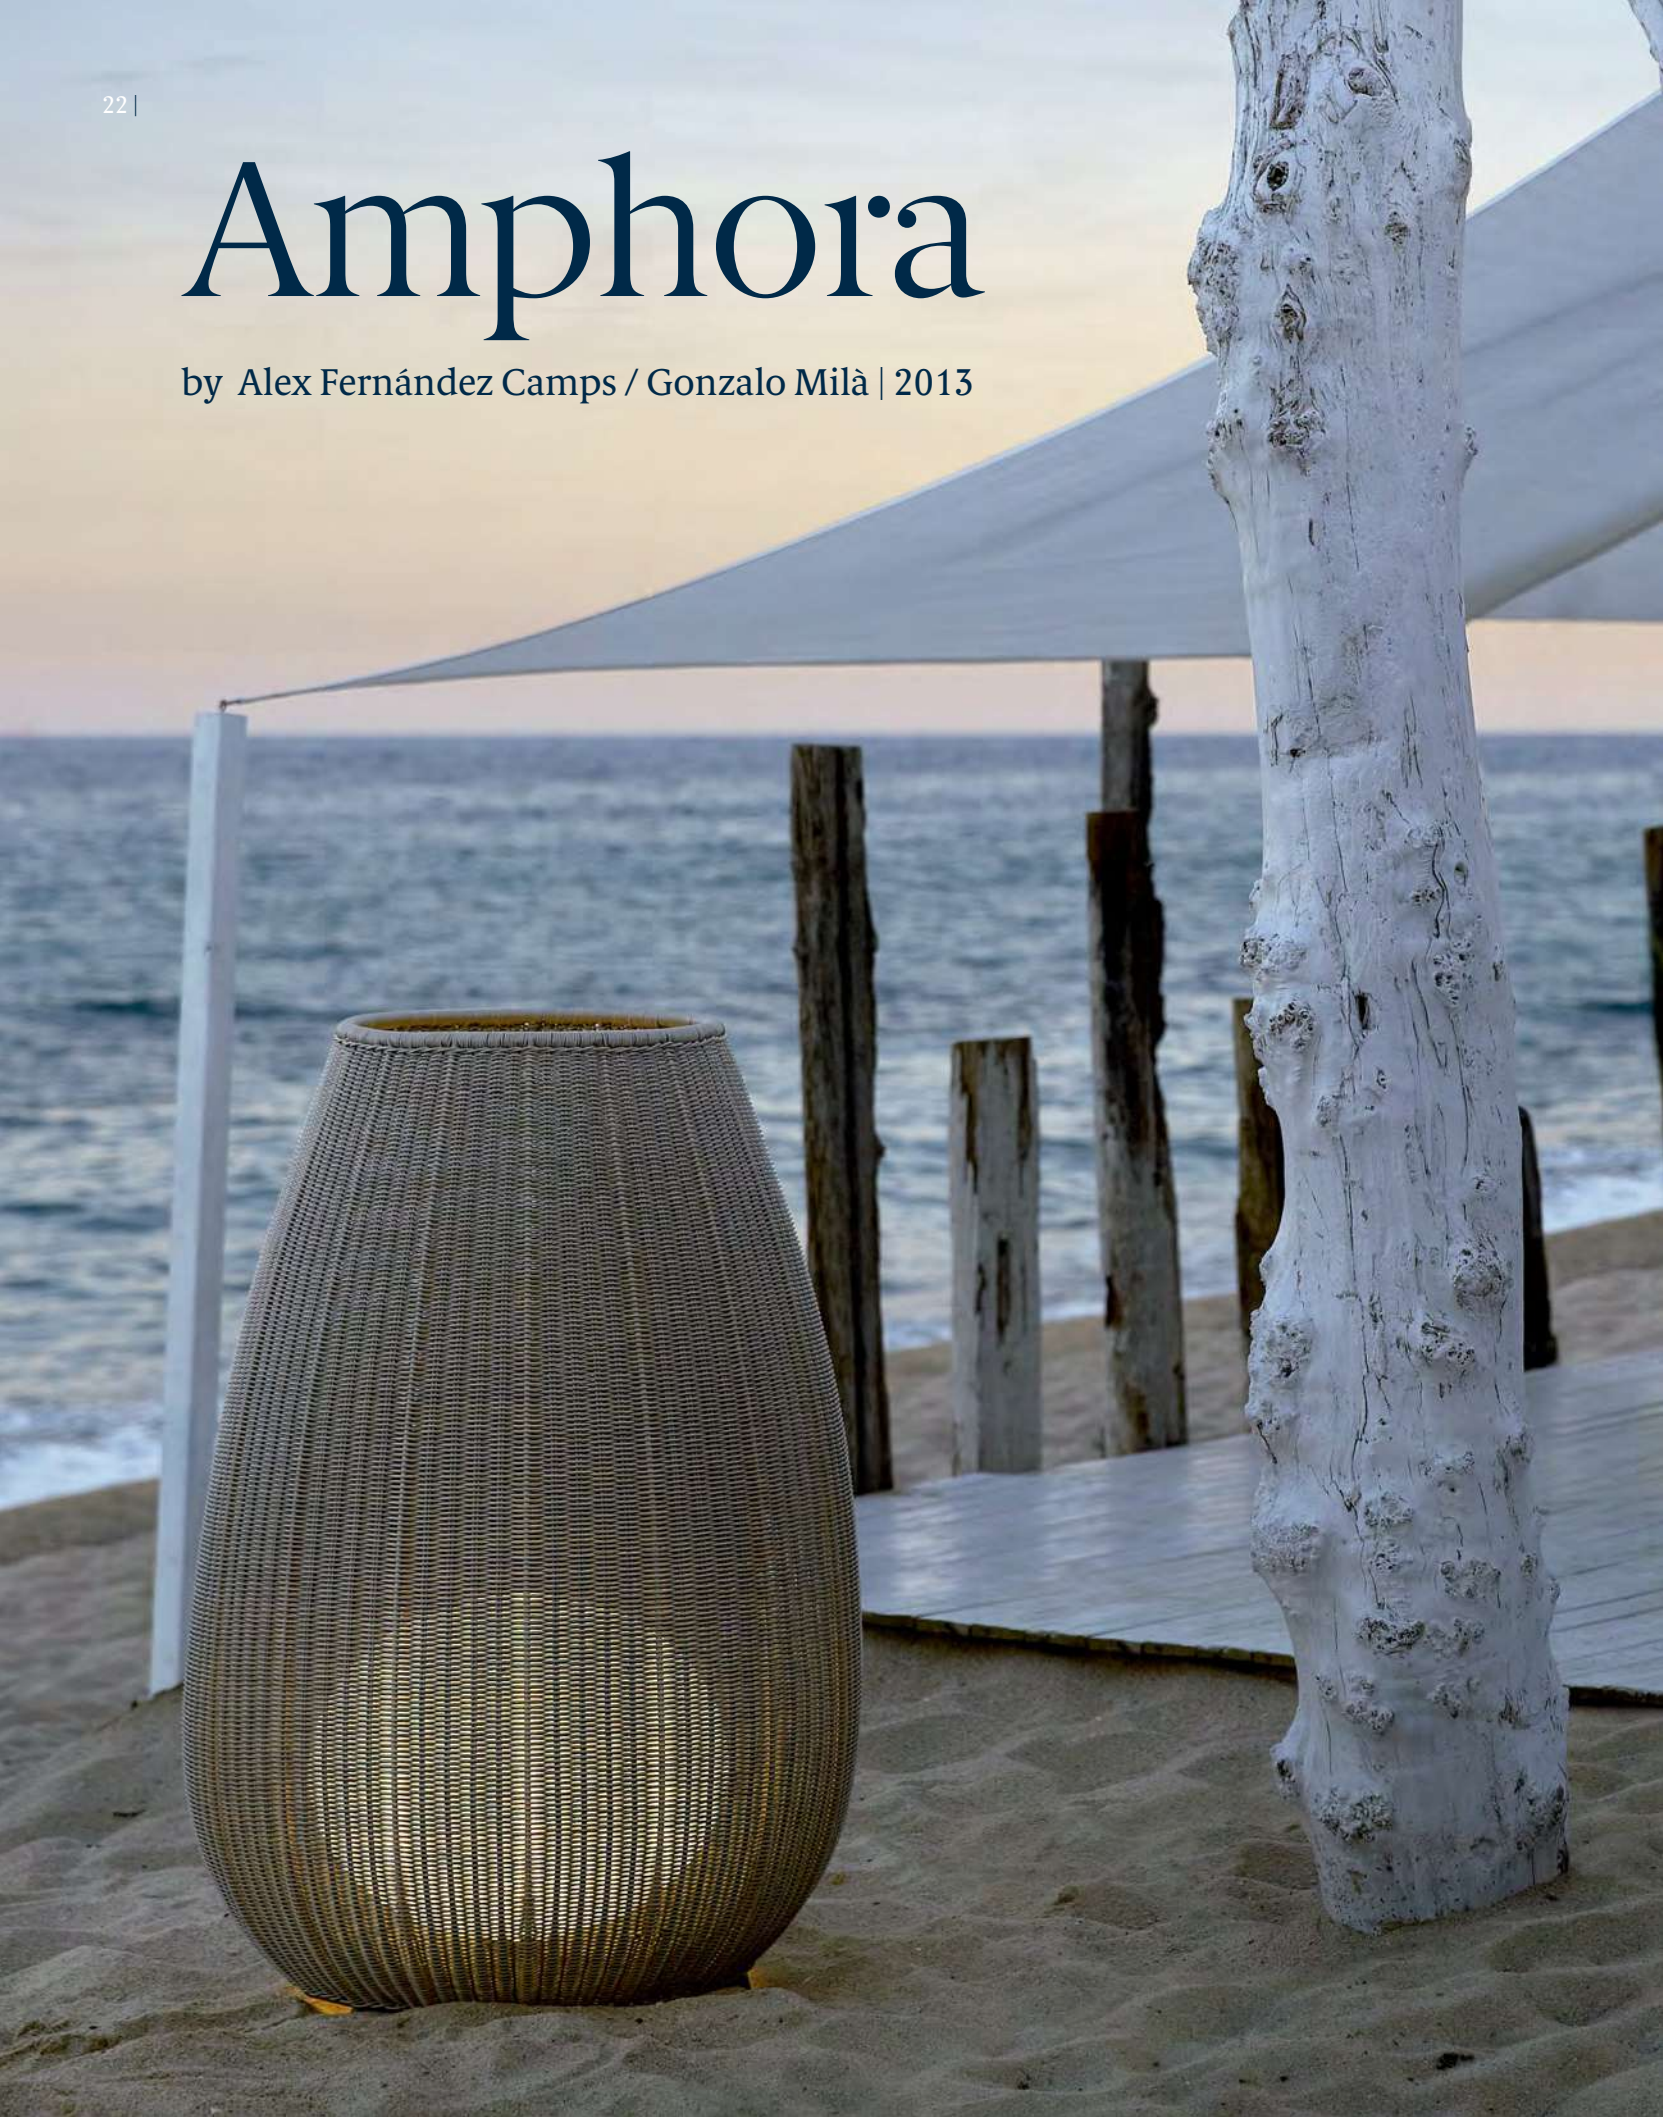
Amphora

by Alex Fernández Camps / Gonzalo Milà | 2013

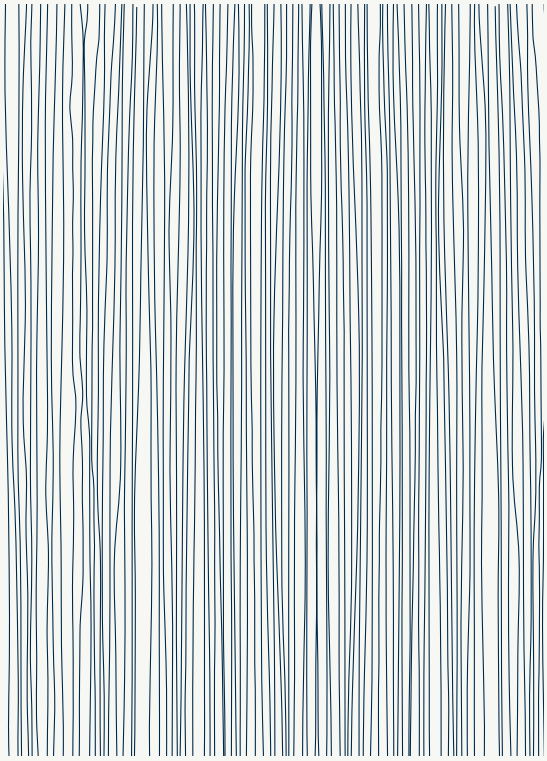


"Sus grandes volúmenes y formas rinden un sutil y discreto homenaje a las ánforas de terracota que antiguamente se utilizaban para almacenar alimentos."

"The size and shape of this collection pay a subtle and discreet homage to the terracotta amphora formerly used for to store food".

Las Amphora son lámparas pensadas para crear ambientes cálidos en espacios de exterior; aunque su carácter altamente decorativo también las hace perfectas para interior.

En este caso hemos utilizado la fibra sintética para la confección artesanal de sus grandes cestos de fibra, pantallas que se apoyan sobre un trípode de fundición de aluminio con tratamiento antioxidante. La fuente de luz se encuentra en el interior de una elipse de polietileno que garantiza su estanqueidad. La luz que emite esta luminaria es rica en matices.



The Amphora collection has been designed to create a warm environment especially in outdoors. However, thanks to its highly decorative look, the Amphoras can equally be placed both in outdoor and indoor.

In this collection we have used a synthetic wicker to make up big handmade baskets as shades with a aluminum tripod foot subjected to a cataphoresis treatment. The light source is located inside the polyethylene ellipse which grants its water proofing. The light emitted by the Amphora collection is full of nuances.

Elipse outdoor

by Alex Fernández Camps / Gonzalo Milà | 2017

Elipse outdoor es una solución sencilla, libre y flexible en su aplicación. Puede actuar de sobremesa colgada de una rama durante una cena, iluminar un rincón de un jardín junto a una hamaca, o crear una atmósfera mágica con un conjunto de Elipses suspendidas en la noche. La belleza de la sencillez.

Elipse outdoor is a simple, free and flexible solution on its application. It can be used for a table top hanging from a branch during a dinner, to light a corner of a garden next to a hammock, or create a magical atmosphere with a set of ellipses suspended at night. The beauty of simplicity.

Fora

by Alex Fernández Camps / Gonzalo Milà | 2010

Hostal Empúries / L'Escala

"Un globo generoso, suspendido en una pantalla tejida con la técnica tradicional del mimbre; nos da luz eficiente en la proximidad y una luz general tamizada y agradable".

"A generous globe, suspended within a woven outer shade with the traditional wicker technique is efficiently illuminating the area with a general and pleasant light."

Fora está técnicamente preparada para ser instalada en exteriores, pero la calidez del objeto permite colocarlo también en interiores.

La versión de pie tiene una solución que nos gusta porque respeta la vida vegetal del suelo al permitir que llegue el máximo de luz, agua y aire posibles. La pantalla de fibra sintética de Fora es altamente resistente a los efectos climatológicos; a la vez que aporta una agradable atmósfera de luz difusa o envolvente.

Fora is technically ready to be installed outdoors, but its warmth allows it to be placed indoors as well.

The floor version has a solution that we like because it respects the soil's plant life by allowing as much light, water and air as possible. The Fora synthetic fiber shade is highly resistant to weather, while at the same time providing a pleasant atmosphere of diffused and enveloping light.

Garota

by Alex Fernández Camps / Gonzalo Milà | 2015

Garota, inspirada en el caparazón de un erizo de mar, nos ofrece una luz cálida y tamizada; envuelta en formas orgánicas, redondeadas y sutiles; pensada para acompañarnos en zonas de interior y exterior indistintamente.

Garota, inspired by a sea urchin's shell, offers us a warm and dispersed light; wrapped in organic, rounded and subtle forms; designed to indistinctly accompany us in interior and exterior areas.

Lineana

by Christophe Mathieu | 2010

Contundente y robusta; Lineana es un producto para perdurar. Lineana aporta un renovado aspecto estructural a las persianas de librillo, tan presentes en la arquitectura Mediterránea, que han servido de inspiración para su creación.

Strong and robust; Lineana is a timeless product. Lineana provides a reference to the structural aspect of window blinds, so present in the Mediterranean architecture which served as an inspiration for its creation.

Indoor

En Bover creemos que la combinación adecuada entre diseño y desarrollo técnico es crucial para el desarrollo de un producto exitoso. Nos gusta decir que creamos iluminación de diseño contemporáneo hecha con el corazón. Contemporáneo porque son piezas que saben mantener el equilibrio entre calidad y las formas dando lugar a un estilo intemporal. Hechas con el corazón porque nos encanta cuidar hasta el más mínimo detalle.

At Bover we believe that the right combination of design and technical development is crucial to the development of a successful product. We like to say that we create "heart made contemporary design lighting pieces". Contemporary because they are pieces that know how to maintain the balance between quality and shapes giving way to products that will remain actual in the future. Made with the heart because we love to take care of every detail.

Alba

by Rubén Saldaña | 2014

Alba es un aplique de diseño arquitectural con la estructura frontal de madera o acero; especialmente indicado para iluminar elementos que requieran una luz directa y uniforme.

Alba is an architecturally designed wall sconce with frontal decorative plate in aluminum or wood; especially suitable to project light over elements requiring direct and uniform light.

YOU HAVE
THE POTENTIAL
TO MAKE
BEAUTIFUL
THINGS.
YES, YOU.

Drip/Drop

by Christophe Mathieu | 2017

Drip y Drop te cautivan desde la distancia, su diseño te sorprende cuando te acercas y te invita a encenderlas. Es ahí donde la magia alcanza su máximo esplendor.

Drip and Drop models are captivating from a distance, their design surprises even more when up close, inviting one to illuminate them. That is when they reach their greatest splendor.

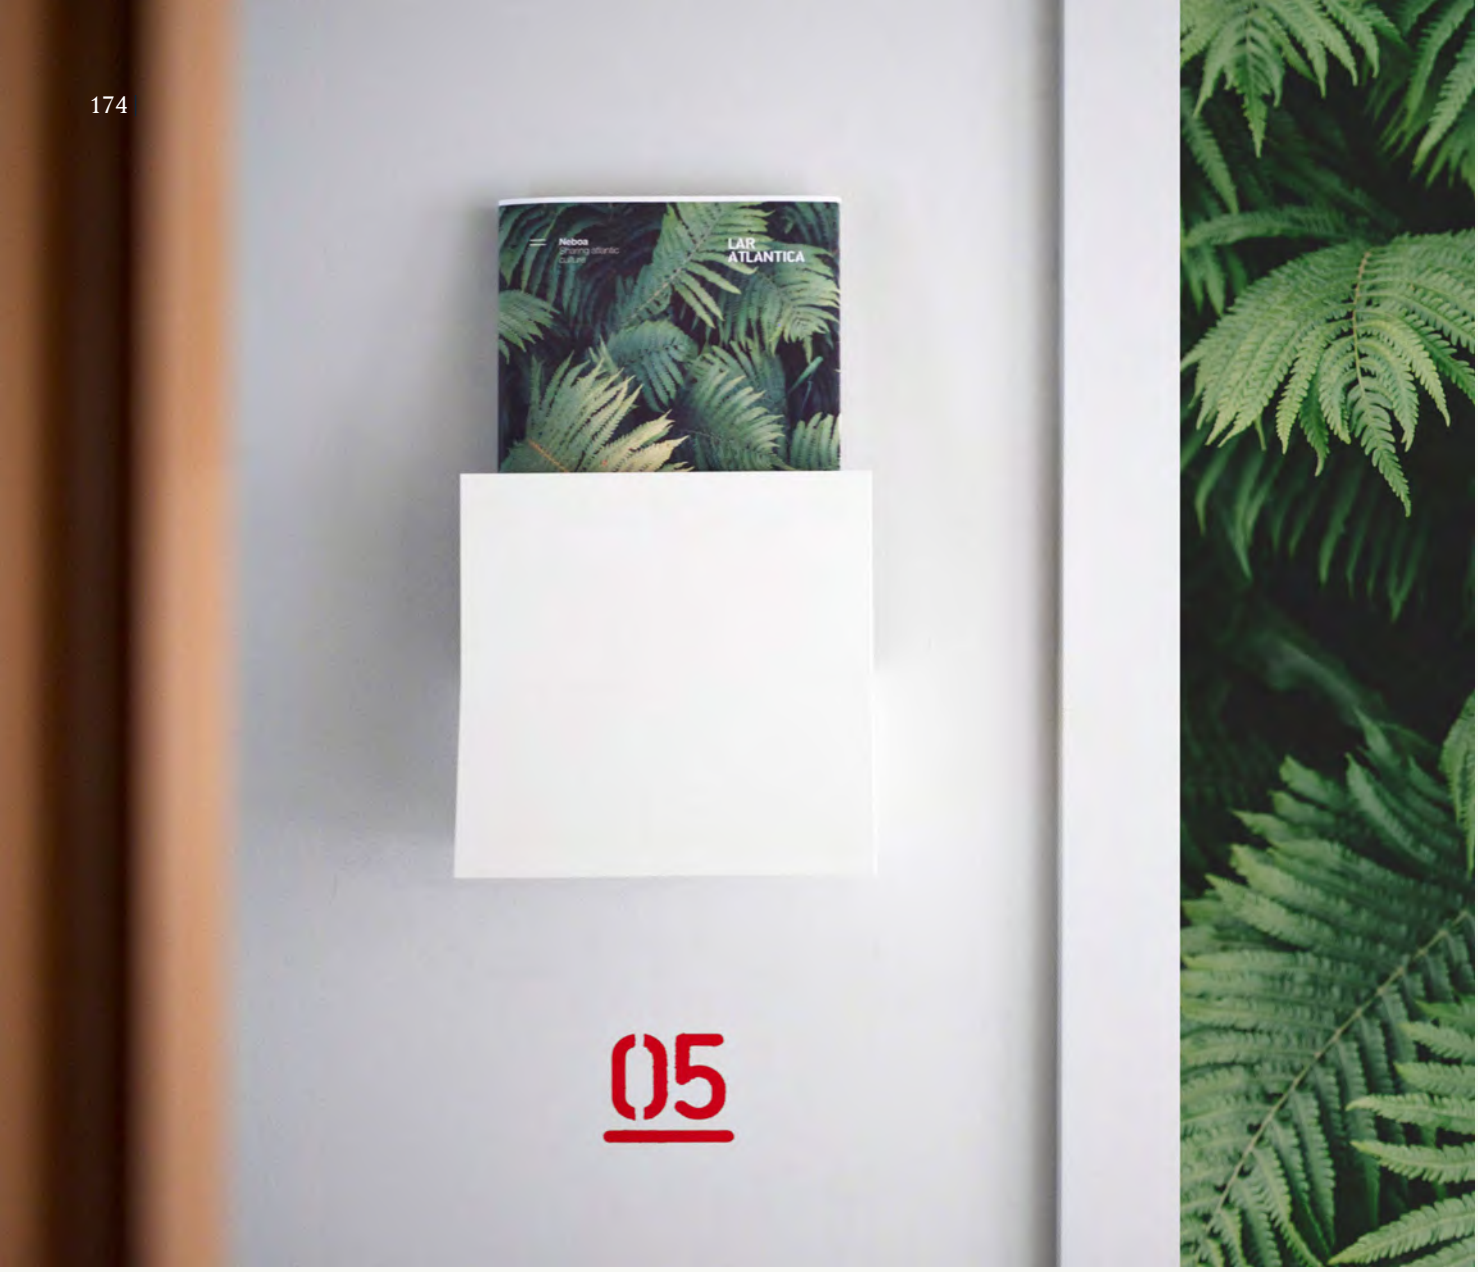
Lea

by Alex Fernández Camps | 2009

Less is more



Lea es un aplique arquitectural, libre de ornamentos. Lea es una luz-lugar ya que dispone de una repisa en la parte superior que nos permite depositar libros o revistas, y al mismo tiempo ofrecernos una luz inferior de gran calidad lumínica. Una solución geométrica pensada para cumplir una función particular en cada proyecto; recibidores, pasillos, mesas de estudio, mesas de restaurante, etc.

▲
Alojamiento Urbano Lar Atlántica / Vigo ▶
Foto: Intsight

Lea is an architectural wall lamp, free of ornaments. Lea is a light-space because it has a shelf at the top that allow us to place books and magazines, and at the same time offer us a lower light of great quality. A geometric solution designed to fulfill a particular function in each project: for entrances, along aisles, in front of study tables, on restaurant tables, etc.

Nón Lá

by Jorge Pensi Design Studio | 2015

GABRIEL GARCIA MARQUEZ DOCE CUENTOS PEREGRINOS

Nón lá es nuestra manera de rendirle un pequeño homenaje al sombrero vietnamita y a su cultura centenaria. Su sencillo cono abierto, nos ofrece una estructura ligera, resistente y un punto vanguardista gracias a la descentralidad de su cavidad lumínica. Su brazo de fundición de hierro en forma de ángulo nos ofrece un aspecto más rudo que contrasta con la sutileza de su pantalla cónica.

Non La is our way of paying a little homage to the Vietnamese hat and its centenary culture. Its simple open cone offers us a light structure that is resistant and a bit avant-garde, thanks to the decentralization of its light cavity. Its cast iron arm in the shape of an angle gives it a rough look that contrasts with the subtlety of its conical shade.

Tria

by Rubén Saldaña | 2016

Hotel Barceló Atenea / Barcelona

La forma orgánica y modular hace de Tria un objeto singular y original. Tria nos permite instalarlo como aplique individual o por módulos con un solo punto de conexión en pared, facilitando su aplicación como mural en recepciones, pasillos, etc.

Its organic and modular shape makes Tria a unique and original object. Tria can be installed either as a single wall light or as a light module with a sole connection point on the wall which makes it easier to be displayed as a mural at hotel reception desks, corridors, etc.

Cala

by Jordi Llopis | 2013

El contorno estilizado y liso, hace de Cala una luminaria contemporánea. El acabado lacado brillo le imprime un aire fresco y actual. La profundidad del difusor inferior aporta mayor calidad lumínica.

With stylized and smooth outline, Cala is a contemporary lamp. Its bright lacquered external finish gives it a fresh and up-to-date look. The depth of the lower diffuser brings greater light quality.

Elea

by Joana Bover | 2013

Hotel Vincci Condal / Barcelona

Las lámparas Elea debido tanto a su formato, cilíndrico y plano, como a sus materiales, poliuretano acabado lacado brillante; son un producto absolutamente contemporáneo e intemporal.

Elea lamps with their cylindrical and flat format as well as their glossy lacquered polyurethane materials, are absolutely contemporary and timeless products.

Pantalla 12 x 13 cm / *Lampshade 4.72"x 5.12"*

Oliver consiste en una de las típicas pantallas de Bover recubierta por un cristal de borosilicato; el resultado es una elegante lámpara que ofrece tanto luz directa como de ambiente. Al estar la pantalla textil protegida del polvo, la hace además ideal para proyectos contract.

Oliver consists of one of the typical Bover shades covered by borosilicate glass; the result is an elegant lamp that offers both direct and ambient light. As the textile shade is protected from dust, it is also ideal for commercial projects.

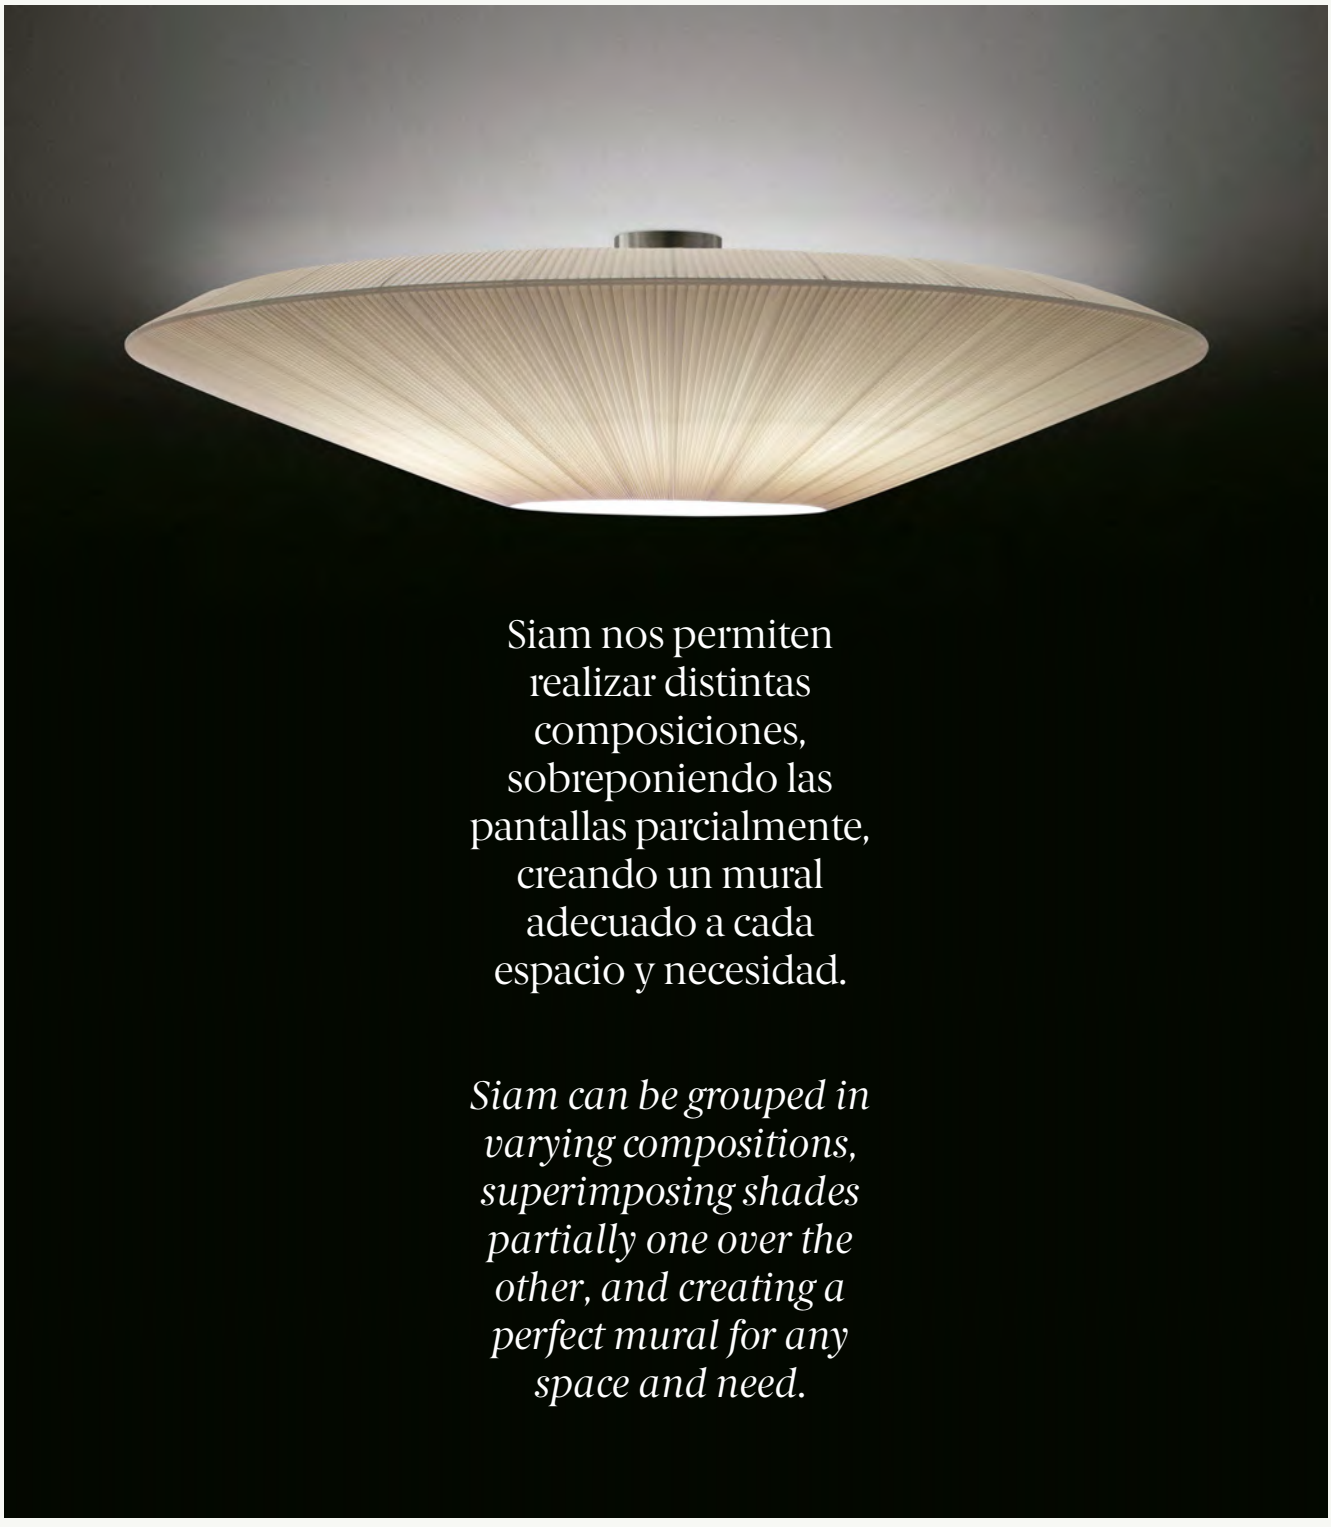
Siam

by Joana Bover | 2010



Siam nos permiten realizar distintas composiciones, sobreponiendo las pantallas parcialmente, creando un mural adecuado a cada espacio y necesidad.

Siam can be grouped in varying compositions, superimposing shades partially one over the other, and creating a perfect mural for any space and need.

Urban

by Joana Bover | 2011

La colección Urban ofrece luz de ambiente a través de la pantalla de cinta hecha a mano y del difusor de metacrilato; aportando calidez e intemporalidad tanto a ambientes residenciales como contract.

The Urban collection offers ambient light through its handmade ribbon shade and the methacrylate diffuser; bringing warmth and timelessness to both residential and commercial environments.

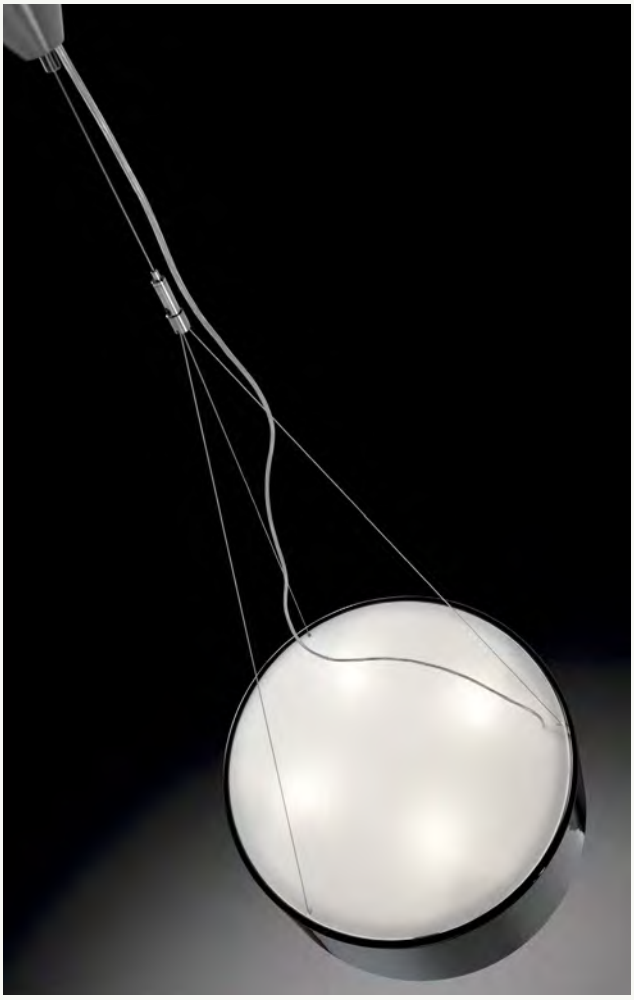
Cala

by Jordi Llopis | 2013

El contorno estilizado y liso, hace de Cala una luminaria contemporánea. El acabado lacado brillo le imprime un aire fresco y actual. La profundidad del difusor inferior aporta mayor calidad lumínica.



With stylized and smooth outline, Cala is a contemporary lamp. Its bright lacquered external finish gives it a fresh and up-to-date look. The depth of the lower diffuser brings greater light quality.

Danona

by Joana Bover | 2002

Danona es un claro ejemplo de un producto contemporáneo e intemporal que se adapta a cualquier ambiente o aplicación. Tanto la piel como las pantallas le aportan calidez.

Danona is a good example of contemporaneous and timeless product adaptable to any environment. Both leather along with the shades contribute to its warmth.

Drip/Drop

by Christophe Mathieu | 2017

Con Drip & Drop el objetivo estuvo claro desde el principio: hacer una lámpara de suspensión en cascada. El resultado, más de diez formatos que satisface tanto las necesidades residenciales como las del sector contract.

With Drip & Drop, the goal was clear from the beginning: make a cascading pendant lamp. The result is a design with more than ten references that satisfies both residential and commercial sector needs.

Elea

by Joana Bover | 2013

Las lámparas Elea debido tanto a su formato, como a sus materiales, poliuretano acabado lacado brillante; son un producto absolutamente contemporáneo e intemporal.

Elea lamps with their shaper as well as their glossy lacquered polyurethane materials, are absolutely contemporary and timeless products.

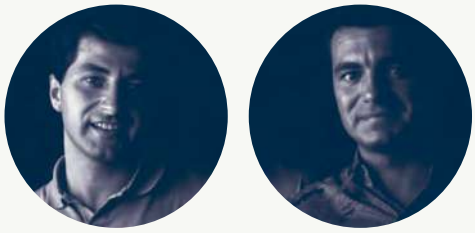
Hardy

by Sergi Devesa / Òscar Devesa | 2013



Realizadas en cristal de borosilicato, las Hardy aportan una luz directa, eficiente y sin deslumbramiento. Los dos cilindros concéntricos hacen de la Hardy un colgante simple y elegante con amplias aplicaciones tanto en proyectos residencial como contract.

Made of borosilicate glass, Hardy provides direct, efficient and glare-free light. The two concentric cylinders make Hardy a simple and elegant pendant with wide applications in both residential and contract projects.

Marietta

by Joana Bover | 2015

Marietta es una brillante interpretación de las clásicas campanas de suspensión industriales, que a principios del siglo XX iluminaban la mayor parte de los talleres y fábricas de Europa. Marietta es una lámpara de gran formato. Es contemporánea, decorativa, cálida y envolvente. Capaz de adaptarse a cualquier entorno y convivir con otros productos en ocasiones más puristas y menos presenciales.

Marietta is an outstanding interpretation of the classical industrial lights installed in most of the warehouses and factories in Europe during the beginning of the Twentieth Century. Marietta is warm, contemporary and decorative. It can adapt to any environment and live together with other products without distraction.

Maxi

by Joana Bover | 2004

Elegante, sutil e imponente; Maxi aporta iluminación cálida y diseño intemporal, que se adapta sin estridencias al paso del tiempo sin perder su acento contemporáneo.

Elegant, subtle and imposing; Maxi provides warm lighting and timeless design, which gracefully adapts to the passage of time without losing its contemporary feel.

Mei

by Joana Bover | 2004

Heather Dubbeldam Architects

En las Mei, la pantalla de cinta hecha a mano tiene un absoluto protagonismo. Las lámparas Mei resultan ideales para crear ambientes amables donde se requiera una luz cálida y rica en matices.

In Mei, the handmade ribbon work is more prominent. Mei lamps are ideal for creating friendly environments where warm and rich light is required.

Mos

by Joana Bover | 2008

Hotel Vincci Condal Mar / Barcelona

Hostal Empúries / L'Escala

Mos es una generosa estructura romboidal compuesta por pantallas de cinta hechas a mano. Su intemporalidad y gran versatilidad permiten instalarla en todo tipo ambientes; tanto residenciales como contract.

Mos is a generous rhomboidal structure made of handmade ribbon shades. Its timelessness and great versatility allow it to be installed in all types of environments; both residential and commercial.

Nón Lá

by Jorge Pensi Design Studio | 2015

BEST of year INTERIOR DESIGN
HONOREE 2015

Nón Lá es nuestra manera de rendirle un pequeño homenaje al sombrero vietnamita y a su cultura centenaria. Su sencillo cono abierto, nos ofrece una estructura ligera, resistente y un punto vanguardista gracias a la descentralidad de su cavidad lumínica.

"La manera en que la poesía se mezcla con la tecnología es lo que realmente me gusta."

Non La is our way of paying a little homage to the Vietnamese hat and its centenary culture. Its simple open cone offers us a light structure that is resistant and a bit avant-garde, thanks to the decentralization of its light cavity.

"What I really like is the way that poetry mixes with technology"

Oliver

by Sergi Devesa / Òscar Devesa | 2013

Coquinaria / Santa Agnès de Malanyanes

Oliver consiste en una de las típicas pantallas de Bover recubierta por un cristal de borosilicato; el resultado es una elegante lámpara que ofrece tanto luz directa como de ambiente. Al estar la pantalla textil protegida del polvo, la hace además ideal para proyectos contract.

Oliver consists of one of the typical Bover shades covered by borosilicate glass; the result is an elegant lamp that offers both direct and ambient light. As the textile shade is protected from dust, it is also ideal for commercial projects.

Penta

by Gonzalo Milà / Juan Carlos Ines | 2017

"La premisa era hacer una lámpara con la que se pudieran tener conversaciones alrededor de una mesa viendo las caras de las personas con las que hablas, que no deslumbrara". Penta no solo encuentra fácilmente su lugar en el hogar, sino que también se adapta perfectamente al ambiente de un hotel o a cualquier tipo de proyecto dentro del sector Contract.

"The premise was to make a lamp with which you could have conversations around a table looking at the faces of the people that you're talking to". A lamp that without glare. Penta not only easily finds its place in the home but also perfectly adapts to the environment of a hotel or to any type of project within the commercial sector.

Slend

by Christophe Mathieu | 2014

INTERIOR DESIGN BEST OF YEAR HONOREE 2014

Slend viste el espacio con distintas formas esbeltas y sutiles, que nos permitan realizar gran variedad de combinaciones. La luz directa con una apertura de 100° hace de Slend una elección excelente para espacios y objetos que queremos resaltar (mesas de restaurante, mostradores de tiendas, huecos de escalera, etc.)

Slend dresses the space with different slender and subtle forms which allow us to make a great variety of combinations. Its direct light with a 100° opening makes Slend an excellent choice for spaces and objects that we want to highlight (restaurant tables, shop counters, stairwells, etc.)

Syra 45

by Alex Fernández Camps / Gonzalo Milà | 2014

Las Syra son productos ideales para terrazas y porches cubiertos que necesiten luz cálida y elementos amables que ofrezcan buenas dosis de confort. Estas prestaciones se consiguen gracias a la fibra sintética utilizada para la confección artesanal de su gran pantalla.

Syra are ideal products for covered terraces and porches that need warm light and gentle elements that offer good comfort. These features are achieved thanks to the synthetic fiber used for the shade's craftwork.

Tibeta

by Christophe Mathieu | 2015

Tibeta es una familia de luminarias de suspensión realizadas a partir de un cuerpo de aluminio torneado. Está formada por tres volúmenes de distintas dimensiones y formas, que pueden utilizarse individualmente o en conjuntos de tres o más, según las necesidades del usuario.

Tibeta is a family of pendant lights made off a spun aluminum body available in three different sizes and shapes which can be used either individually or in groups of three or more units according to client's needs.

Urban

by Joana Bover | 2011

La colección Urban ofrece luz de ambiente a través de la pantalla de cinta hecha a mano y del difusor de metacrilato tanto superior como inferior; aportando calidez e intemporalidad tanto a ambientes residenciales como contract.

The Urban collection offers ambient light through its handmade ribbon shade and the top and bottom methacrylate diffuser; bringing warmth and timelessness to both residential and commercial environments.

Danona

by Joana Bover | 2002

Danona es un claro ejemplo de un producto contemporáneo e intemporal que se adapta a cualquier ambiente o aplicación. Tanto la piel como las pantallas le aportan calidez.

Danona is a good example of contemporaneous and timeless product adaptable to any environment. Both leather along with the ribbon shades contribute to its warmth.

Drip/Drop

by Christophe Mathieu | 2017

Todos los modelos de Drip & Drop prestan especial atención al detalle, a la calidad de la luz, sus brillos, colores y contrastes, pero sobre todo a la necesidad específica que han de cubrir.

All Drip & Drop models pay special attention to detail, to the quality of light, its brightness, color and contrast but especially to the specific needs they meet.

Garota

by Alex Fernández Camps / Gonzalo Milà | 2015

Garota, inspirada en el caparazón de un erizo de mar, nos ofrece una luz cálida y tamizada; envuelta en formas orgánicas, redondeadas y sutiles; pensada para acompañarnos en zonas de interior y exterior indistintamente.

Garota, inspired by a sea urchin's shell, offers us a warm and dispersed light; wrapped in organic, rounded and subtle forms; designed to indistinctly accompany us in interior and exterior areas.

Muf

by Joana Bover | 2007

Hotel Villa Emilia / Barcelona

Con su base iluminada Muf sorprende allí a donde se coloque. En función del material que elijamos para la pantalla obtendremos mayor o menor rendimiento lumínico, pero en todos los casos, la lámpara mantendrá una belleza rotunda y una buena tamización de la luz.

With its illuminated base, Muf surprises whereever it is placed. Depending on the material we choose for the shade, we will get higher or lower light output, but in all cases, the lamp will maintain its unequivocal beauty and fine illumination.

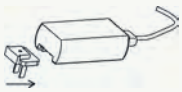
Arm and base in Black Graphite. Shade finished in Chrome, Copper and White Lacquer.

Driver Connector



Nón Lá es nuestra manera de rendirle un pequeño homenaje al sombrero vietnamita y a su cultura centenaria. Su sencillo cono abierto, nos ofrece una estructura ligera, resistente y un punto vanguardista gracias a la descentralidad de su cavidad lumínica. Su base de fundición de hierro en forma de ángulo nos ofrece un aspecto más rudo que contrasta con la sutileza de su pantalla cónica.

Non La is our way of paying a little homage to the Vietnamese hat and its centenary culture. Its simple open cone offers us a light structure that is resistant and a bit avant-garde, thanks to the decentralization of its light cavity. Its cast iron arm in the shape of an angle gives it a rough look that contrasts with the subtlety of its conical shade.

Especificaciones técnicas y condiciones de venta

Technical Specifications & Sales Conditions

	Solo aislamiento básico. Las partes accesibles están conectadas a una toma de tierra. Toma de tierra: obligatoria.	*Only basic insulation, accessible conductors are earthed. Grounding: compulsory.*
	Aislamiento básico más aislamiento secundario o ambos sustituidos por un aislamiento reforzado. Toma de tierra: excluida.	*Basic Insulation plus second Insulation or both replaced by reinforced Insulation. Grounding: excluded.*
	Alimentación de seguridad realizada a muy bajo voltaje. No debe usarse a más de 12V (a 50Hz). Toma de tierra: excluida.	*Very low safety supply voltage; not to be used at over 12V (at 50 Hz). Grounding: excluded.*
	Aparato adecuado para el montaje directo sobre superficies normalmente inflamables.	*Suitable for mounting on normally flammable surfaces.*
	Luminarias no adecuadas para el montaje directo en superficies normalmente infamables	*Products identified with this symbol CANNOT be in contact with normally-flammable materials.*
	Todos los productos están fabricados siguiendo las normas de seguridad y electromagnetismo de Europa: EN 60598-1, EN 60598-2-1 y marcado CE.	*All products are manufactured according to the set safety and electromagnetism standarts of Europe: EN 60598-1, EN 60598-2-1 and marked CE.*
	Productos USA - Certificados by UL Standard Safety / Underwriters Laboratories	*US Products - Certified by UL Standard Safety /Underwriters Laboratories*
	Dimmer incorporado	*Built-in dimmer*
	Las medidas se especificarán siempre en cms. l = largo / a = ancho / h = alto / p = profundo / ø = diametro	*Measurements are always given in centimetres. l = length / a = width / h = high / p = deep / ø = diameter*
IP XX	Índice de protección contra la penetración de cuerpos sólidos y líquidos. La primera cifra indica la penetración de cuerpos sólidos y la seguda cifra la infiltración de agua.	*Portection degree offered by the fixture to the ingress of solids and liquids. First figure, protection against solid bodies penetration. Second figure, protection against water penetration.*
IP 66	Protección completa contra contacto, protección contra penetración de polvo. Protegido contra la penetración de agua en caso de inyacción pasajera.	*Totally protected against dust ingress. Protected against high pressure water jets from any direction. Limited ingress permitted.*
IP 65	Protección completa contra contacto, protección contra penetración de polvo. Protegido contra los chorros de agua (desde todas las direcciones)	*Full contact protection, protection against dust penetration. Protected against water jets (from all directions)*
IP 54	Protección completa contra contacto, protección contra sedimentaciones de polvos en el interior. Protegido contra agua pulverizada	*Complete protection against contact, protection against sedimentation of dust inside. Protected against water spray*
IP 20	Protección contra cuerpos sólidos de más de 12mm Sin protección contra el agua.	*Protected against solid bodies above 12mm diameter -* *No protected against water.*
	Las dimensiones de las cajas y los florones corresponden a la parte externa de los mismos.	*Box and canopies dimensions correspond to the external part size.*
	Fotometría disponible	*Available photometry*

K	Temperatura de color	*Color temperature*
Lm	Lumen, unidad de medida del flujo luminoso	*Lumen, Luminous flux unit measurement*
	Digital Addressable Lighting: protocolo estandar digital direccionable para control de sistemas de iluminacion.	*Digital Addressable Lighting: protocol for control of lighting systems*
	Regulacion sin necesidad de linea de control adicional	*Regulation without additional control line*
	Regulacion del flujo luminoso desde el 1% al 100%, instalacion de linea adicional de control 2 hilos	*Control of the luminous flux from 1% to 100%, installation of additional control line 2 wires*
	Regulacion del flujo luminoso desde 0 (apagado) y el 100%, instalacion de linea adicional de control 2 hilos	*Control of the luminous flux from 0 (off) and 100%, installation of additional control line 2 wires*
	Este producto tiene una tarifa de transporte diferenciada	*This product has a differentiated shipping rate*
ADA	Producto compatible con las regulaciones de la American Disabilities Act.	*Product compliant with the American with Disabilities Act regulations.*
	Dispositivo regulador de intensidad de la luz por proximidad.	*Proximity light intensity control device.*

Importante: Nueva codificación de artículos

Con el fin de facilitar la tramitación de pedidos hemos creado un código único de producto acabado que incluye la estructura y la pantalla de la luminaria (dicho código se corresponde asimismo con un código EAN).

El código único de producto acabado está compuesto del antiguo código de estructura seguido por él o los códigos de pantalla (sin el guion entre la P y el número):

"Código estructura"/"código pantalla exterior"/"código pantalla interior"

Ejemplo OLIVER

Antes:

- Estructura: 413306
- Pantalla Cinta Translúcida Blanca: P-734C

Ahora:

- 413306/P734C

Ejemplo MUF

Antes:

- Estructura: 2215521
- Pantalla Exterior Negra: P-564E
- Pantalla Interior Negra: P-564

Ahora:

- 2215521/P564E/P564

En caso de tener dudas por favor contactar con el departamento de atención al cliente.

Attention: Item recoding

In order to facilitate the processing of orders, we have created a unique finished product code that includes the structure and the shade of the luminaire (this code also corresponds to an EAN code).

The unique finished product code is composed of the old structure code followed by it or the shade codes (without the dash between the P and the number):

"Structure code"/"external shade code"/"internal shade code"

Examples OLIVER

Before:

- *Structure code: 413306*
- *White translucent ribbon shade: P-734C*

Now:

- *413306/P734C*

Examples MUF

Before:

- *Structure code: 2215521*
- *Black external shade: P-564E*
- *Black internal shade: P-564*

Now:

- *2215521/P564E/P564*
